DURACLEAN XP

9050000
3/07/2008

DURACLEAN XP is a clear, blue colored, moderately alkaline general-purpose maintenance cleaner intended for industrial and institutional cleaning tasks.

The product is a water soluble, non-flammable product that is free of petroleum and chlorinated solvents.

DURACLEAN XP is formulated with a biodegradable surfactant system offering superior wetting, emulsification, and dispersion. **DURACLEAN XP**, because of its unique formulation, will clean a variety of oils, fats, and particulate soils. It is a free rinsing product.

HOW AND WHERE TO USE

DURACLEAN XP may be used as a spray on, wipe or brush-on cleaner, or as a soak cleaner. It is not designed to be used in spray washers, as foam levels will be excessive.

DURACLEAN XP is an alkaline material so always wear goggles, rubber gloves and protective clothing when working with the product. It is important to read and understand the material safety data sheet prior to working with **DURACLEAN XP**.

For light soils on painted surfaces, dilute 1 part **DURACLEAN XP** with 10 to 19 parts water, spray or wipe on and then immediately wipe off with clean rinse cloth. For heavier dirt, dilute 1 part to 5 parts of water and use as above.

For machinery cleaning, dilute 1 to 4 parts for light oil and soil and spray or wipe on as above. For heavy oil and soil removal, dilute 1 to 1. Use and rinse as above.

When using as a soak tank cleaner to clean metal parts, tools, filters, etc. Use 8 to 10 fl oz per gallon of water. Heating solution up to 180F will speed cleaning. Most metals are not harmed when using the dilutions recommended above. **DURACLEAN XP** is not recommended for use on aluminum substrates. **DURACLEAN XP** should be considered as a cleaner for the tougher soils encountered in industrial and automotive manufacturing plants.

DURACLEAN XP is a heavy duty alkaline cleaner. Most surfaces can be safely cleaned with when used as directed. Rinsing or wiping off should be done as quickly as possible. When using on painted surfaces keep contact times to a minimum.

CAUTION

DURACLEAN XP is an alkaline product and should be handled accordingly. Avoid skin, eye and oral contact. Wear protective clothing, gloves and goggles when handling the product. Flush exposed areas immediately with clean, cold water. Contact a doctor immediately in case of injury.
